

Setup Email support@paperfull.app via Cloudflare Email Routing

Langkah 1: Buka Cloudflare Dashboard

- Login ke <https://dash.cloudflare.com>
- Pilih domain **paperfull.app**

Langkah 2: Buka Email Routing

- Di sidebar kiri, klik **Email** · **Email Routing**
- Jika pertama kali, klik **Get started** atau **Enable Email Routing**
- Cloudflare akan otomatis tambah MX record · klik **Enable / Add records**

Langkah 3: Tambah Destination Email

- Buka tab **Destination addresses**
- Klik **Add destination address**
- Isi: anabilhisyam23@gmail.com
- Klik **Save**
- Buka Gmail · cari email verifikasi dari Cloudflare · klik link verifikasi
- .. Cek folder Spam jika tidak muncul di inbox

Langkah 4: Buat Custom Address

- Kembali ke tab **Email Routing** · **Routes** (atau **Routing rules**)
- Klik **Create address**
- Custom address: support
- Action: **Send to** · pilih anabilhisyam23@gmail.com
- Klik **Save**

Selesai ·

Email ke support@paperfull.app sekarang masuk ke Gmail.

(Opsional) Reply dari Gmail sebagai support@paperfull.app

Supaya reply dari Gmail tampil sebagai support@paperfull.app, bukan anabilhisyam23@gmail.com:

- 1 Buka Gmail · **Settings** (··) **See all settings**
- 2 Tab **Accounts and Import**
- 3 Di bagian **Send mail as**, klik **Add another email address**
- 4 Isi:
 - Name: Paperfull Support
 - Email: support@paperfull.app
 - ☐ **Uncheck "Treat as an alias"** (opsional, terserah)
- 5 Klik **Next Step**
- 6 SMTP Server: smtp.gmail.com

- Port: 587
- Username: anabilhisyam23@gmail.com
- Password: **App Password** (bukan password biasa) · Buat di <https://myaccount.google.com/apppasswords>
- · TLS

- 7 Klik **Add Account**
 - 8 Gmail kirim kode verifikasi ke support@paperfull.app (yang forward ke Gmail juga) · masukkan kode
 - 9 Selesai · saat reply, pilih **From: support@paperfull.app**
-

Migrasi ke Email Dosen (Nanti)

Cukup ubah destination di Cloudflare:

- 1 Email Routing · Routes · ~~edit~~ support
- 2 Ganti destination ke email dosen baru
- 3 Done · website tidak perlu diubah
