Guidelines for Authors

Submission of Manuscript

Global Media Journal – Canadian Edition (GMJ — CE) encourages Canadian and international media scholars, media professionals, and graduate students to submit scholarly articles and book reviews related to communication and media studies.

All manuscripts must be submitted directly to the Guest Editor of the themed issue electronically, using the e-mail address provided in the call for papers. No manuscripts are to be submitted to the Advisory Board or the journal Editor-in-Chief.

Acceptance/Rejection Decision

Manuscripts relevant to the themed issue of GMJ — CE will go through a double blind refereeing process. The Guest Editor of the themed issue manages the refereeing process in consultation with the journal Editor. The process takes from 2 to 4 months depending on the date of submission. Upon completion of the review process, the Guest Editor notifies authors about the decision outcome. All acceptance/rejection decisions are final.

Copyright

By providing submissions to the GMJ — CE, the authors acknowledge that the manuscripts, or similar versions of them, have never previously been published and are not under consideration by another journal or publisher.

Furthermore, the authors confirm that the manuscripts do not infringe upon copyright laws, whether they apply to the images, figures, tables, or the quotations used.

Submission and processing of articles are **free of charge** according to our Open Access policy.

Views expressed in GMJ — CE are not necessarily endorsed by the Editor-in-Chief, Editorial team, Advisory Board, or the Saint Paul University. The authors remain the sole responsible party for the content of the manuscript.

 - Five to ten keywords which reflect the contents of the paper
- **Text:** The text of the manuscript must be saved as a separate document and cannot include any elements that could lead, directly or indirectly, to the identification of any of its authors.
- **Title:** A title of the paper (including a sub-title, if applicable) must be on the top of the first page of the manuscript.
- **Abstract:** An abstract, indented 1.27 cm. (½ inch) from right and left, must precede the main text of the manuscript, and should be submitted in both English and French. If the author(s) cannot submit the abstract in the second language, the journal Editor will take care of the translation in consultation with them. Abstracts should be no more than 250 words in length and no less than 150 words.
- **Length:** For papers, the manuscript should be 5,000 to 7,500 words, including all references and endnotes. Review articles (of more than one book) should be 2,500 to 3,000 words; and book reviews should be 1,000 to 1,200 words.

- **Language:** Manuscripts may be submitted in English or French.
- **Spelling:** Spelling should be correct and consistent – if you choose a spelling system (e.g. Canadian, American, British, or Australian) stick to it throughout the whole paper. However, please note that quotations must be produced as they are.
- **Formatting:** In formatting the text, authors must follow the **Formatting Instructions** below.

 - ***Fourth Level Headings***— italics, first letter of each main word in capital, left-justified, paragraph follows on same line.
- **Links:** Given the online format of the GMJ — CE, links within the text leading to external websites can be useful. If they are used, special attention should be placed on ensuring their functionality, accuracy and appropriateness.
- **Images, Figures, and Tables:** If images, figures, and tables are used, they should be inserted where desired in the manuscript document. They should be accompanied by necessary text captions and have a resolution of at least 300 dpi. It is the responsibility of the author(s) to ensure that the use of the images, figures, and tables does not infringe upon copyright laws.
- **Endnotes:** Use endnotes, not footnotes. And, only if additional information or explanations are required and cannot be incorporated into the main text. It is vital *not* to use the automated endnotes feature in Word.
